Campus Ghostwalk

Timing: Approximately 45 Minutes

Purpose

Walk through your campus including classrooms, social gathering areas, and extracurricular spaces to look for evidence of the 3 to 5 themes your group identified when looking at your school's guiding principles.

Process

Choose one person in your group to write down the themes in the space below and record the evidence you find throughout your campus (artifacts on the walls, etc.).

When we invite people over to our homes for dinner, we suddenly see our homes in a different light. We instantly notice the dust on the shelves, the items out of place, and the smudges on the glass. When looking for evidence, look at your school through the eyes of a guest. Think about whether a guest to the school would see evidence of the themes your group identified. Are there other messages distracting people from what is important? Is there anything you see that is sending a message in opposition to the school's guiding principles?

NOTE: Feel free to take pictures as evidence as well. Email to esp@epiconline.org with the theme it is evidence for.

A few ideas:

- Examples of visuals that convey the overall "message" of your school (can be subtle)
- A classroom that visually represents the values of the school
- Spaces on campus that invite students, parents, staff to engage in behaviors that align to the school's guiding principles

REMEMBER TO TURN YOUR WORKSHEETS INTO THE EPIC SCHOOL PARTNERSHIPS STAFF (Both Campus Ghostwalk and If Your School was an Animal…)
