

Discussion Guide

Essential Question: As someone committed to equity, how can I support classroom experiences that lead to deeper learning for students and better prepare young people for future success in college, career, and life? As I reflect on my district's current practices around community schools, how can I build on ways to support whole child education?

Observations: What do you see?

- I saw the students...
- I saw the classroom...
- I saw the teacher...

Notes: *These are your "aha moments," "take-aways," or ideas you would like to revisit and explore as you reflect on your own district's vision.*

- I realize....so I will...
- I'm thinking about how I will...
- I am reminded about the importance of...and so I need to...
- I will replicate...as I recognize that it will help my district/school/students...
- I would like to challenge myself to...
- I am reflecting about...and how it...

Actions/Needs Statements: *These are thoughts you have for next steps or needs you have in light of the reflective conversation.*

My next steps are to...

I still need... because...
